

VINCE JOHN LUCKY CAPIN

Software Engineer | +639777783376 | fegurovince@gmail.com

PROFESSIONAL SUMMARY

I am a Software Engineer with hands-on experience building and maintaining full-stack applications using Java, Spring Boot, PostgreSQL, and Angular. I have contributed to production systems through API development, service migrations, and backend enhancements. I have built cross-platform mobile applications and IoT systems from the ground up, demonstrating my ability to take projects from concept to deployment. I am passionate about writing clean, maintainable code and continuously expanding my technical skill set in fast-paced, collaborative environments.

PROFESSIONAL EXPERIENCE

Associate Software Engineer - Synacy, Cebu City, Philippines | July 2025 - March 2026

- Developed leave application system
- Upgraded email-sender service from java 11 to java 21
- Upgraded email-sender service from Springboot 2 to Springboot 3
- Implemented API endpoint that fetch invoice snapshot. Handles timeframe by hourly, daily, weekly and calculate cost difference from previous fetched snapshot
- Trained for OOP, Springboot, postgresql and angular.

Web Developer Intern - Sultan Kudarat State University | June 2023- August 2023

- Developed CHED Region XII portal using codeigniter framework
- Enhance the readability of existing code
- Fix existing bugs.

PROJECTS

Solar-Powered Automatic Fish Feeder (ESP32 + Android App) Thesis Project

- Developed an IoT-based fish feeder system using ESP32 and ultrasonic sensors to monitor feed levels.
- Built an Android mobile application (Java) to schedule feeding time, adjust feeds quantity, monitor real-time feeds level, and send notifications when feed is low or dispensing is successful
- Integrated Firebase Realtime Database for real-time data synchronization.

Unified Digital Citizen Platform (Angular, Ionic, Spring Boot, PostgreSQL)

- Built the frontend using Angular + Ionic for cross platform mobile support.
- Developed RESTful APIs using Spring Boot for secure backend processing.
- Designed and managed relational database schemas using PostgreSQL.

Certifications and Achievements

8th ICpEP Regional Convention 2024

- Latest Emerging Technologies
- Artificial Intelligence

8th ICpEP Regional Convention Programming (Java Language) February 2024 - first placer

9th ICpEP Regional Convention Programming (Java Language) February 2025 - third placer

FestBot (Robotics Competition) Sumobot Category December 2024 - second placer

SKSU Inter-Campus Chess Male May 2024 - Champion By Team & Champion Board 4

Computer System Servicing Technician January 2025

Trend Micro uCTF Competition August 2024

HackForGov Capture-The-Flag Competition August 2024

EDUCATION

Sultan Kudarat State University
Bachelor of Science in Computer Engineering
Cumulative GPA: 1.99

Isulan, Sultan Kudarat
August, 2021 - June 2025

SKILL

- **Languages:** Java, C++, Python, Typescript, Groovy, HTML, SQL
- **Framework and Tools:** Spring Boot, Angular, Ionic, RESTful API, PostgreSQL, Unit Testing, Postman
- **Platforms:** GitHub, Linux, AWS | **Concepts:** OOP, IoT Systems, Software Development
